

Spring Term - Year 2 Maths -Geometry (Shape)

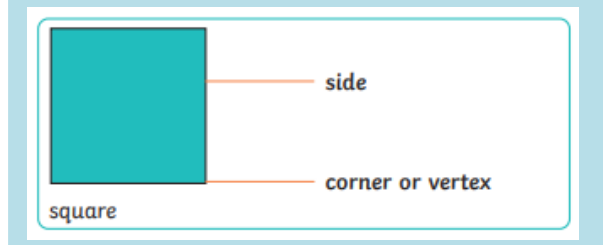

Previously learned Vocabulary		
2D	triangle	cylinder
3D	cube	cone
rectangle	circle	sphere
square	pyramid	cuboid
New Vocabulary		
vertical	faces	
horizontal	cone	
vertices	prism	
edges	symmetry	

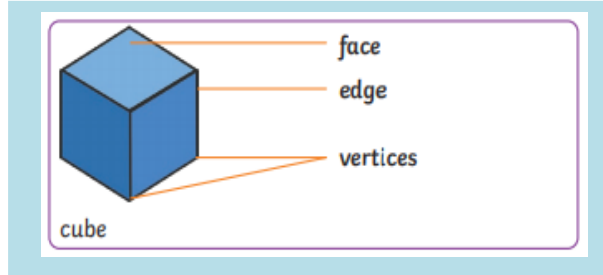

Year 2 shapes

2d shapes	3d shapes
Pentagon (5 sides)  Hexagon (6 sides)  Octagon (8 sides)  Semi-circle 	Prism  

Recognise and describe 2-D shapes

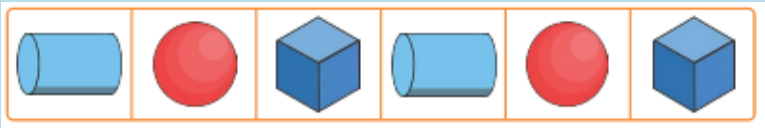

Recognise and describe 3-D shapes

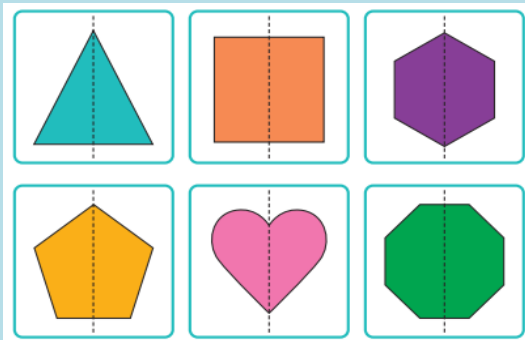

Repeating shape patterns

Recognise 2D shapes in different orientations and work out next shapes in a sequence.

Lines of symmetry

If a shape can be folded in half along a line and both halves are the same then this is known as a line of symmetry.
