Community Primary School

Welcome to Italy Class

Welcome

Italy Class

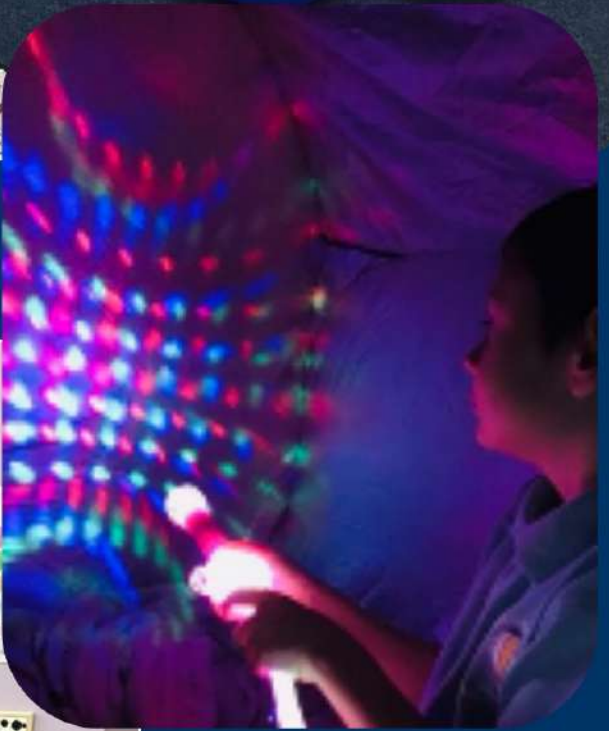

Proudly supporting children with additional needs, fostering growth and achievement every day.

Learning Without Limits

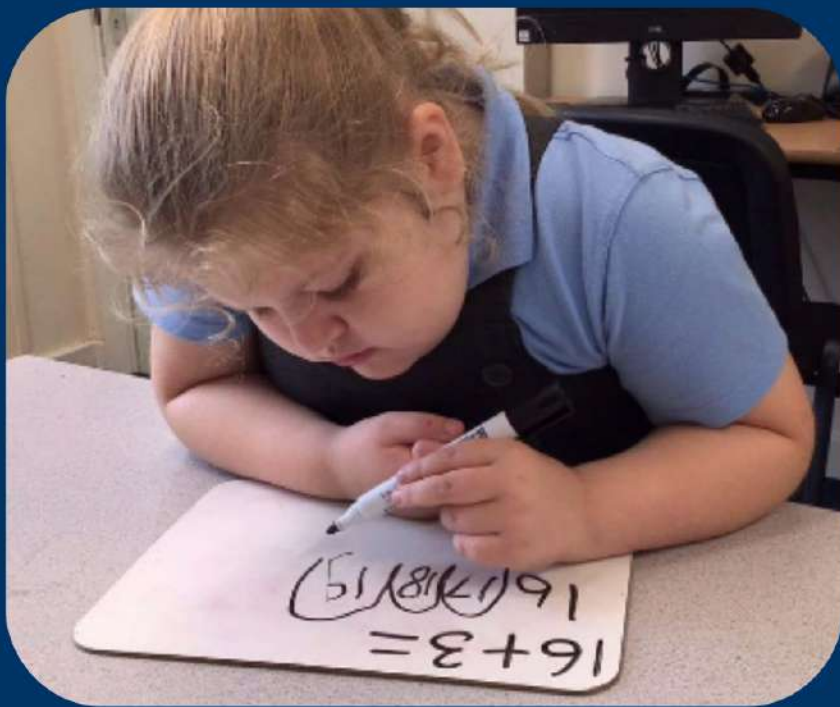

Our new resourced provision launched in September 2025 following a successful bid for funding from the local authority, and currently supports a small number of children with SEND to learn and succeed at school. The unit has a high staff ratio to ensure our pupils have the support needed to access school.

Our resourced provision is supported by a highly skilled and experienced team, carefully selected for their expertise in special educational needs. The provision is overseen by Miss Clay, our SENDCo, who ensures that pupils' individual needs are effectively met. Mrs Plowman, who teaches for half of the week, brings a wealth of knowledge in Early Years Foundation Stage and play-based learning. They are supported by Mrs Stephenson and Miss Pearson, both of whom have significant experience working in special school settings, bringing valuable skills and understanding to the team.

Our sensory room allows children a space to regulate and calm, meeting their sensory processing needs.

Our learning room allows a quieter and more focused/formal space to complete learning tasks.

We offer a bespoke curriculum that follows the child's interests as well as supporting them to achieve National Curriculum outcomes to the best of their ability. Learning is prioritised and outcomes for children is a key priority.
